

# How to use the KevinPataky.com Photo Website?

These are the steps I would follow with the site when visiting for the first time.

1. go to <http://KevinPataky.com>. Click on "Sign In" in the top right of the screen.
  2. Register for an account if you have not already done so. Then...
  3. Once registered, you would then log in using your id (which I believe is your email address) so enter that and then the password you chose. Note: subsequent visits to the site might require that you log in again in order to save images to your LightBox(more on that later).
  4. Click on the Gallery button in the top left corner and a menu drops down.
  5. Select one of the following menu/submenus: "Branford High School / 2009 Freshmen Football" or "Shoreline Youth Football / 2008 Branford Youth Football". Now you can choose from any of the menus for the games in that category that I have photographed.
  6. After selecting one of the galleries, a thumbnails will appear. When you move your mouse over any one of the thumbnails, it will get larger. Click on the page numbers to the right to advance to other pages of thumbnails. When you see a thumbnail that interests you, click on it to enlarge it.
  7. To save it to your LightBox, click on the "Image Menu" button at the top and the "Add to Lightbox" button will appear. Click on the "Add to Lightbox" button to add image to the LightBox.
  8. Click the "Options and Prices" button at the top to see what products are available for the image and add it to your cart if you want to buy something.
- Note:** The LightBox and the Cart are 2 different things. If you don't process an order and pay for the items in your cart, what you put inside of it will eventually go away. The LightBox will hold your selected images forever - or at least until I close up shop some day.
9. You can see what is in your Cart or Lightbox at any time by clicking either of the appropriate buttons at the top left. Gallery | Menu | Cart | Lightbox
  10. You can order from your lightbox at any time. Click on Lightbox button at the top left, then the image in your LightBox that you want to order, then go to step 8.
  11. I can see into any user's LightBox, so it is a great way of you letting me know what you are interested in.

Hope this helped...email me at [Kevin@pataky.net](mailto:Kevin@pataky.net) if you still have questions.
